

4DM Workshops

Education and Training Services for 4DM Users & Partners

INVIA's 4DM Workshops provide professional training to help you get the most from your nuclear cardiology quantification software.

Knowledge. Insight. Expertise.

Whether you are new to the 4DM environment or a seasoned veteran, software training is always a valuable resource. The objective of each one-day workshop, is to help 4DM users become more proficient with the application's features and functionality. By the end of the day, you will have a greater understanding of how 4DM can efficiently and effectively improve day-to-day operations.

Destination Education

All workshops are hosted at INVIA headquarters in Ann Arbor, MI – an easy 25-minute drive from Detroit Metro airport. Our training facility includes a dedicated computer for each class attendee and workshop reference materials to take back to the clinic. Morning refreshments and a catered lunch provide opportunities for more casual conversation with instructors and other 4DM users.

- 3025 Boardwalk Drive, Ste 200, Ann Arbor, MI, 48108
- 8:30 am - 5:00 pm

Accreditations

The 4DM workshops have been approved for **seven Category A continuing education credits** from the **American Society of Radiologic Technologists (ASRT)**. Attendees will receive a certificate upon completion of the course and are responsible for maintaining it for credit tracking.

How to Register

Go to www.inviasolutions.com/workshopsschedule and click the **Register Now** button.

Something for Everyone

From beginner-to-advanced, technologist-to-physician, new installations-to-upgrades – users of all expertise and experience will find value in our courses offered.

2023 Workshop Schedule

Registration opens 90 days in advance. Courses are subject to cancellation based on current health and safety recommendations.
